Dear Farmers, Ranchers, and Others Interested in Wyoming Agriculture,

The “2018 Wyoming Agricultural Statistics” bulletin, featuring most of the published agricultural data for 2017, is now online. NASS published the first Wyoming cattle estimates in 1867, 23 years before Wyoming became a state. Happy 150<sup>th</sup> birthday Wyoming!

I would like to thank all of the farmers, ranchers, agribusinesses, state and federal agency staff, and others in the Wyoming agricultural industry for their efforts and contributions to this publication. Whether you provided, collected, analyzed, or compiled this data, your efforts produce the best estimates possible for Wyoming agriculture.

Highlighted on the cover this year is winter wheat. Wyoming farmers planted 135,000 acres of winter wheat in 2017, harvested 105,000 acres for grain with a yield of 28 bushels per acre, and produced a total of 2,940,000 bushels. Wyoming ranked 32<sup>nd</sup> amongst all 50 states for winter wheat production. Farmers received an average of \$3.75 per bushel and total value of production of \$11,025,000.

The majority of winter wheat grown in Wyoming is Hard Red Winter Wheat and is grown for grain in the southeast corner of the state. The crop is planted in September or early October and is harvested beginning in early-July. There is some Soft White Wheat and a few fields of Hard Red Spring wheat grown for grain in northern counties.

This book is a compilation of the Wyoming data included in over 400 reports published each year by the National Agricultural Statistics Service (NASS). A calendar showing the report release dates can be found in the back of this publication and on the NASS website at: <http://www.nass.usda.gov/Publications/index.asp>

Wyoming farmers, ranchers, and agribusinesses voluntarily provide their individual information which is then summarized to the National, State, and County level. In addition to the information in this bulletin, a vast amount of detailed State and County information, both historic and current, about Wyoming agriculture is available from the multitude of annual reports we publish and the Census of Agriculture. NASS also publishes the Cropland Data Layer each year and weekly Vegetative maps in free and easy-to-use GIS tools known as CropScape and VegScape. The 2017 Census of Agriculture, summarizing about 1 million variables of data about Wyoming agriculture, will also be published in February 2019. Sincerely,

Rhonda Brandt

## WYOMING AGRICULTURE 2017

The value added to Wyoming's economy by the agricultural sector was \$1.77 billion in 2017 and has been above the \$1 billion threshold since 2003. Of that total, animals and animal products accounted for \$1.08 billion, crops totaled \$351 million, and farm-related income accounted for \$339 million.

In 2017, 11,400 farms and ranches used 30.2 million acres to raise agricultural products in Wyoming. Farmer and rancher cash receipts totaled \$1.44 billion. Cattle and calves ranked as the largest livestock commodity raised in the state, followed by hogs and sheep. Hay was the largest crop raised, followed by sugarbeets and corn.

## National Agricultural Statistics Service (NASS) Reports and Data

The NASS Internet homepage provides easy access to the wide range of reports, data and general information published throughout the year. All data in this bulletin is published at an earlier date and can be found most quickly via the Internet.

NASS Homepage – <http://www.nass.usda.gov>

Wyoming Homepage – [http://www.nass.usda.gov/Statistics\\_by\\_State/Wyoming/index.asp](http://www.nass.usda.gov/Statistics_by_State/Wyoming/index.asp)

Through a cooperative agreement with Cornell University, the Albert R. Mann Library distributes NASS, Economic Research Service (ERS), and World Agricultural Outlook Board (WAOB) periodicals and data files via the USDA Economics, Statistics and Market Information System (ESMIS) on a web server. Over 500 NASS reports annually are available free of charge. All NASS reports along with WAOB's World Agricultural Supply and Demand Estimates (WASDE) are available electronically seconds after release.

A calendar of scheduled releases is available from the NASS Homepage by clicking on **Publications**. The next screen is the Reports Calendar where you can choose the year and month of interest.

### Free E-Mail Subscriptions to NASS Reports

When a current report is released, it can be sent free of charge via e-mail to the list of subscribers for that report. From the NASS homepage, select **Publications**, then follow the instructions under **Receive Reports by Email**. You may also go to the Wyoming state report subscription page following this link [https://www.nass.usda.gov/Statistics\\_by\\_State/Wyoming/Subscribe\\_to\\_WY\\_Reports/index.php](https://www.nass.usda.gov/Statistics_by_State/Wyoming/Subscribe_to_WY_Reports/index.php) and select from the following two Wyoming reports:

Wyoming All Reports  
Wyoming Crop-Weather

**There is no charge for e-mail subscriptions via Internet.** You will receive a confirmation message to your email address you provide. You must verify that you subscribed to the releases before you start receiving the releases in your inbox. You may unsubscribe at any time by going to the **Subscription Page** and unchecking the reports you wish to discontinue.

### Agricultural Statistics Data Base (Quick Stats and Quick Stats Lite)

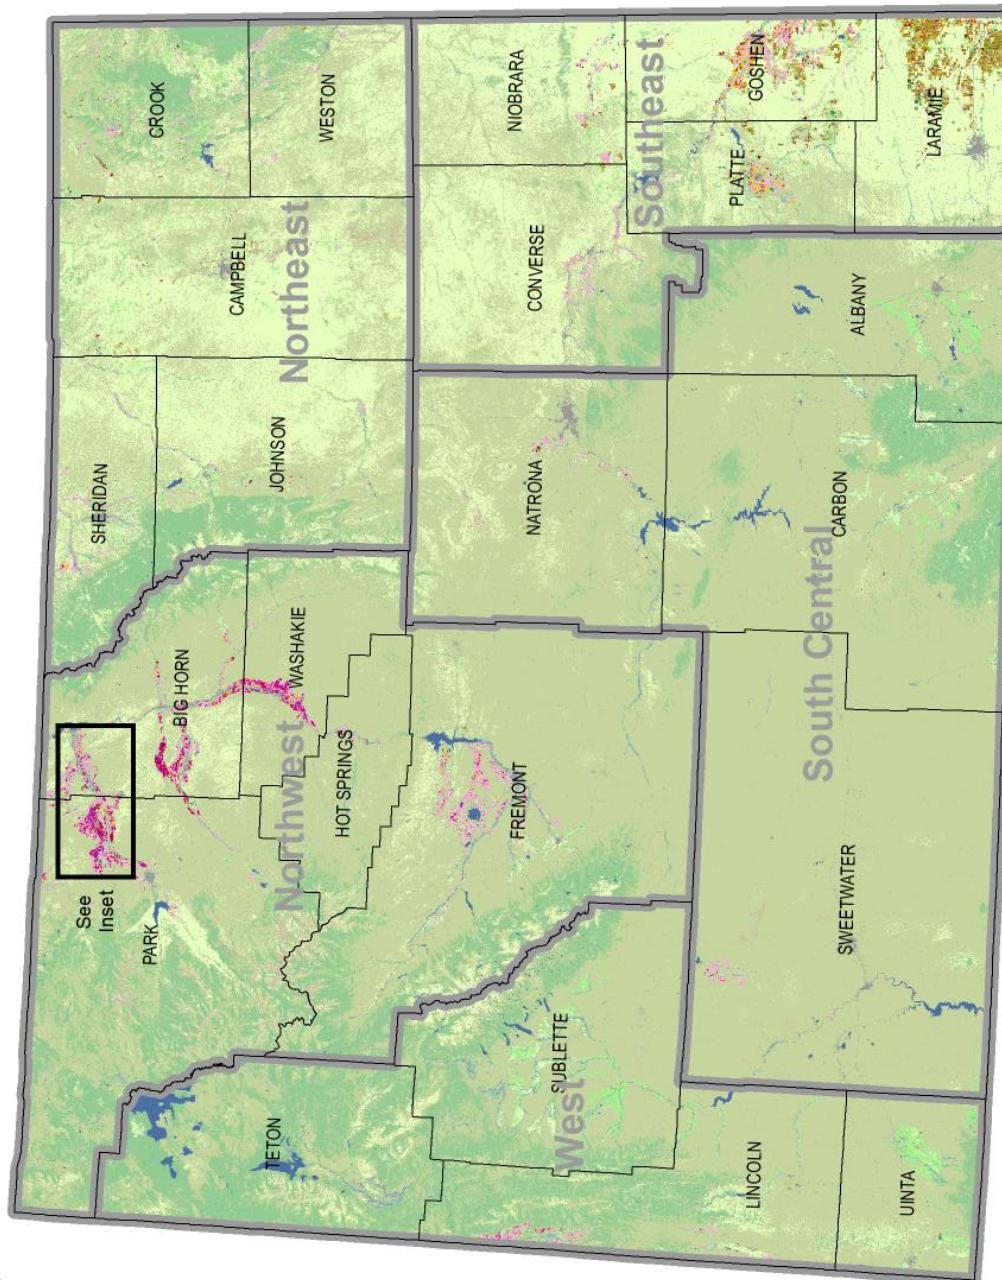

Published U.S., State, and County information is also available in an online database **FREE OF CHARGE**. The database allows custom extracts based on commodity, year, State, and other selection criteria and produces an output file compatible for updating databases and spreadsheets for selected commodities. The database can be accessed from the NASS homepage then selecting **Data and Statistics**. From there, you can retrieve National, State, or County level data using the full **Quick Stats** database or use one of the commonly-used, pre-created queries using **Quick Stats Lite**. The Census of Agriculture is also available in Quick Stats. The county data include totals for the Agricultural Statistics Districts (county groupings) and the State. Video tutorials and other information can be found by selecting **Help**.
